

**Roofing Installation Information and Certification
For Reduction in Residential Insurance Premiums**

Notice to Homeowner: Completion of this certificate may entitle you to a reduction in your residential insurance premium. This certification form is solely for the purpose of enabling residential property owners to apply for a reduction in their residential insurance premium and is not to be construed as any type of express or implied warranty by the manufacturer, supplier, installer, Esurance Insurance Company, Esurance Property and Casualty Insurance Company, Esurance Insurance Company of New Jersey and HomeState County Mutual. Premium reductions are not available for roofs (other than qualifying metal roofs) that have been overlaid onto existing roofs.

Name of Roofing Company: _____

Street Address: _____

Phone: _____ License Number, if any: _____

Address of Residence (Installer/Inspector must complete the following information before signing form)

Name of Owner: _____ Home Phone: _____

Address: _____ Office Phone: _____

City: _____ State/Province: _____ Zip/Postal Code: _____

Policy Number: _____

I, _____, an authorized representative of
Print Name

Print name of Company

Roofing company, do hereby certify that I have inspected or installed, in accordance with the manufacturer's specifications on the above described residence, a roof shingle, which is a composite asphalt shingle, that is listed as complying with Underwriters' Laboratory Standard 2218, Impact Standard for Impact Resistance of Prepared Roof Covering Materials, or as complying with Factory Mutual Standard 4473, Specification Test Standards for Impact Resistant Testing of Rigid Roofing Materials by Impacting with Freezer Ice Balls. The impact resistant roof covering was installed over the entire roofing surface, including the main areas of the roof and the hips and ridges (including the ridge vent systems). The physical properties of the product used in hip and ridge applications must be of like kind and quality to that of the installed approved product. The roof covering has not been overlaid onto existing roofing material (other than qualifying metal roofs), and is free of defects or damage, including hail damage.

UL 2218/FM 4473 Classification

Manufacturer's Name: _____

Year Manufactured: _____

Brand name: _____ Product Color: _____

Date of Installation: _____

Class 3

Class 4

After January 1, 1999, for UL Standard 2218, approved products, and after July 1, 2005, for FM Standard 4473 approved products, each individual shingle, which is a composite asphalt shingle, must be labeled with the following information. In signing on the line below, the contractor agrees that the roof covering product packaging indicates either the UL classification under UL brand name, and that a label from the packaging has been supplied to the owner of the residence. The contractor also agrees that the entire roof covering is separately labeled with either the UL Standard 2218 classification, or the FM Standard 4473 classification, and with the manufacturer's name, the date of the manufacture, and brand name.
